COMMERCIAL WINDOW FILM

Make your glass work for your business.

Window film for offices, storefronts, dealerships and showrooms. Gainesville and North Central Florida.

SOLUTIONS FOR YOUR SPACE

01

Solar control

Explore film options for sun-exposed glass and hot window areas.

02

Glare control

Balance screen visibility, daylight and the appearance of your glass.

03

Privacy film

Compare reflective and frosted options for offices and internal glass.

Plan your installation.

SEND THE ESSENTIALS

- Property city or ZIP and building type
- Glass photos, approximate window count and height
- Heat, glare or privacy priorities
- Access needs, business hours and timing

ASSESSMENT PROCESS

1 **Review**
Glass, solar exposure and appearance goals.

2 **Confirm**
Measurements, film compatibility and access.

3 **Define**
Film choice, installation scope and timing.

START WITH PHOTOS

Text or email your project details. A measurement or site visit may be needed to finalize the scope.

Projects toward Tampa or north of Gainesville: confirm travel and scheduling with Gavin.

GAINESVILLE, FLORIDA

Dealership window film

Showroom glass + office privacy film

EXTERIOR SHOWROOM GLASS AFTER INSTALLATION

A real installation.

Gavin's completed dealership work includes film on exterior showroom glass and reflective film on office glass.

THE EXTERIOR

The photograph shows the finished appearance across the showroom glazing.

THE OFFICE

The paired photographs below document the glass before and after reflective film.

Office glass, before and after.

BEFORE

AFTER

Reflective privacy depends on relative lighting. Illuminated interiors can be visible after dark.
These project photos document appearance; no measured energy or temperature result is claimed.
